

Mr FEI Chao

General Director of Shanghai Jinmei Elderly Care Center

Fei Chao is the Director-General of Shanghai Jinmei Elderly Service Center. In 2014, he entered the elderly care industry and engaged in community services for dementia. He is committed to building a dementia-friendly community for the elderly and providing community-based support for dementia families.

He participated in the project design of "Memory Home-Community Dementia Family Support Center", the Pilot Project Exploration of a Friendly Community for the Elderly in Shanghai, the "Changning District Elderly Cognitive Impairment Friendly Community Construction Standard" and the "Shanghai Elderly Cognition", compiled the Guidelines for the Construction of Handicap Friendly Communities, and authored the "White Paper on the Needs of Dementia Families Community Needs Research" published by Jinmei.

Topic: Dementia Friendly Community

The speech will share in detail the construction of a dementia friendly community, while introducing the background of the construction of the friendly community and the current experience and achievements in the community. At the same time, combined with the recently released survey on the community needs of dementia families, the speech will introduce explorations and practices that Jinmei has done in support of dementia families.
